

Wreccsam Triathlon Club

Environmental Policy (Wreccsam Triathlon Club)

Wreccsam Triathlon Club believes that organisations are responsible for achieving good environmental practice and operating in a sustainable manner.

We are therefore committed to reducing our environmental impact and continually improving our environmental performance as an integral and fundamental part of our club strategy and operating methods.

It is our priority to encourage our members, partners, race entrants and all business associates to do the same. Not only is this sound commercial sense for all; it is also a matter of delivering on our duty of care towards future generations.

Our policy is to

- Wholly support and comply with or exceed the requirements of current environmental legislation and codes of practice.
- Minimise our waste and then reuse or recycle as much of it as possible.
- Minimise energy and water usage at our social events and races, minimise the use of vehicles, and processes we use in order to conserve supplies, and minimise our consumption of natural resources, especially where they are non-renewable.
- Operate our events and activities (where appropriate) with due regard to environmental issues as far as reasonably practical and encourage the use of alternative means of transport and car sharing as appropriate.
- Apply the principles of continuous improvement in respect of air, water, noise and light pollution from our events and reduce any impacts from our operations on the environment and local community.
- As far as possible purchase products and services that do the least damage to the environment and encourage others to do the same.
- Assess the environmental impact of any new processes or products we intend to introduce in advance.

For any issues related to Environmental Policy linked to this organisation please contact:
